

Beautiful architecture and landscaping in a secluded setting overlooking Tecolote Creek. This private 4-bedroom, 3.5-bath home has a large living room with open beam ceilings and windows that bring the wooded setting in. There's both a formal dining room and a breakfast area located at either end of the gourmet kitchen. The huge master bedroom also has open beam ceilings and a large master bath with separate shower and soaking tub. Included on the second floor is an enclosed sunroom with views of the creek and a loft with a skylight, perfect for reading or relaxing. This great floor plan has the living spaces open to each other and the bedrooms separated for privacy with two of them on the first floor. The lovely yard is filled with a wide variety of fruit trees, including lemon, apple, plum, orange and avocado.
